

Pretoria Street Bridge Park

Progress 2020

Prior to 2020: poor maintenance, dumping

Response: constant clean-ups - unsustainable

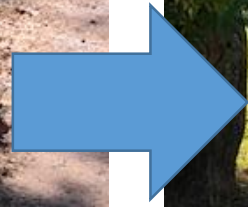

Decision to fence to better control access

In 2020 Trevor Lunt led an initiative to raise over R80,000 to fence the Park. This was completed in November 2020.

2021: work continues on maintenance

NORA has started a programme to augment JCPZ maintenance, and to investigate solutions to erosion along the river – but these require the financial support of residents!
